

IMPORTANT SAFETY NOTICE

CPA TAXI TOILET FACILITIES

For the convenience of all drivers, Brisbane Airport provides toilets, a prayer room and associated wash facilities in the central parking area near the main taxi holding yard.

Over the past few months BAC has received some complaints in regards to the state of the toilets during certain times of the day, which include water on the floors and toilet paper being left on the ground.

In response, Brisbane Airport have performed a full review of the cleaning schedule, inspection programmes and assessment of the facilities accessible to drivers

While Brisbane Airport will continue to monitor the facilities there are some important points for drivers to remember that will assist in providing a safe facility for all users:

- Treat the facilities with respect and leave them safe and clean for the next person to use
- Wear appropriate shoes
- Place all toilet paper in the toilet, keeping in mind excessive use of paper will block the toilets
- Do not splash excessive water on the floors

If the toilets need additional attention or cleaning, please report any issue (including faults) to the taxi officer located in the control room. They can arrange for a cleaner to attend.

Brisbane Airport thanks you for your cooperation and with your assistance can provide world class services to all users to the Airport.

Regards
Ground Transport Manager
